

Pesflow
ONE STOP INDUSTRIAL VALVE SOLUTIONS

CONICAL STRAINERS

PRODUCT CATALOGUE

Pesflow Conical Strainer is a highly efficient temporary filtration solution, designed to protect critical pipeline components during system startup and maintenance. Engineered for superior performance, these strainers effectively remove debris, scale, and unwanted particles, ensuring smooth operation and enhanced longevity of industrial pipelines. With a robust design and versatile installation options, our Conical Strainers are ideal for a wide range of applications across process industries.

Design Features

✔ Wide Range of Sizes

Available in standard sizes from 20 NB to 1200 NB, catering to various pipeline requirements.

✔ Ideal for New Installations

Specifically designed for new pipeline start-ups to prevent damage caused by debris.

✔ Precision Filtration

Provides filtration as fine as 40 microns, ensuring optimal system performance.

✔ Multiple Configurations

Available in Conical, Basket, and Spectacle shapes to suit different application needs.

✔ Flexible Installation

Can be installed in both horizontal and vertical pipelines, with the cone positioned either upstream or downstream based on system requirements.

✔ Versatile Flow Design

Supports in-to-out and out-to-in flow configurations, offering adaptability in diverse setups.

✔ Customizable Spool Piece

Optional spool piece can be provided upon request for easy integration with existing pipelines.

These features make Perfect Engineering Services' Conical Strainers a reliable choice for industries requiring effective, temporary filtration solutions before commissioning pipelines.
